HTML/CSS, JavaScript, Chrome Extensions API, Firebase

Designed and developed a feature-rich Chrome extension that enables users to track their browsing activity and build healthier digital habits by setting custom time limits for specific websites.

Engineered a real-time tracking system that captures website usage and triggers alerts when user-defined limits are exceeded.

Built an intuitive dashboard that displays daily and weekly usage patterns, empowering users with insights to reduce distractions and improve focus.

Utilized Chrome Extension APIs for background scripting, storage management, and dynamic UI rendering.
